MobileGo CrowdSale Escrow

When the MobileGo Crowd sale completes, a total of 100m \$MGO tokens will be created by ICO-Tech and distributed according to the below coin-mechanics.

\$MGO will be issued as a hybrid across Waves & Ethereum Blockchains (a world first).

The crowd sale will run for 4 weeks starting 25.04.2017 3PM UTC and ending 24.05.2017 3 PM UTC There is no \$ value cap - only the 100m \$MGO cap.

From the 100m \$MGO, the distribution will occur as following:

- 70.0m MGO for Crowd Sale
- 29.7m MGO for Development Fund.
- 0.3m MGO for Bounties.

The crowd-fund will offer time-based & GAME payment based discounts - see 'BNC Deal Sheet' for full details.

There is no Minimum \$ raise. All 100M \$MGO will be issued irrespective of \$ value raised.

Mobile Go intends on liquidating and/or hedging the crypto-currency **post** Escrow-Release to avoid digital currency price volatility.

Escrow set-up:

To promote trust in the Mobile Go crowdsale, an escrow arrangement has been established for Bitcoin & Ethereum deposits, both using a 3 of 4 multi-signature wallet.

Escrow signatories will be:

- •Alex Migitko CTO, Director at MobileGo Foundation Key holder 1
- Nele Maksimovic Asia Liaison, Director at MobileGo Foundation Key holder 2
- Fran Strajnar CEO of BNC, Co-founder of DAX Ltd, Blockchain Labs; Lead Escrow Key holder 3
- Pantelis Roussakis CMO at BNC & Treasurer at Blockchain Association of Australia Key holder 4

Project Funds Release:

Escrowed Funds will be released if the following condition is met:

- 1. ICO Tech & Mobile Go can display a successful distribution of all \$MGO tokens.
- 2. Condition 1 is met within 30 calendar days of the crowd-funding period finishing.

If the above conditions are not met, all ICO participants will be refunded, minus the escrow fees.

Jon Comer CMO
